

Eve Lemonidou

- Recensione sul libro "International Contemporary Artists - Vol V", edito da ICA Publishing di New York (USA), luglio 2012.

"Born in Italy, Terdich presented his works at various exhibitions worldwide and numerous international prizes. His realism, driven by uncommon technical capabilities, is intimate, and his paintings contain an unspoken, mysterious narrative, which offers an emotionally and psychological presentation that attracts the viewer, as emphasized in his last works "waters", complex compositions, where the subjects are broken within the crystal water in a multitude of dynamic reflections. He focused mainly on figurative subjects, hauntingly composed to evoke an immediate respect. He also shows a clear attitude at exalting the light, obtaining paintings pervaded by uncommon atmospheres and brightness".
