- press release: "Material World" - "Saphira & Ventura Gallery" (New York), 22 agosto 2019.

"Amid the world of culture and entertainment stands a plurality of concepts and symbols which often have cryptic and ambiguous meanings, in its upcoming exhibition, contemporary art gallery, Saphira & Ventura will be exploring the works of select artists from its collection with a focus on Franck Utsenea. In this eye-opening exhibition, Material World, light will be shed on the creative and unique approaches to art in a new era. The opening reception of Material World will be held on August 22 at 6:00pm and the exhibition will run until September, 02 2019.

For those who appreciate cutting edge approaches to art as well as the puzzling aura of artworks and their imagery...

Among this exhibition will also be Paolo Terdich, a hyper-realist specializing in aquatic works which go beyond the simple imagery of bodies of water. Instead, Terdich focuses on the various forms and elements it is capable of, putting his figures in pools and experimenting with the how shapes change and manipulate our perceptions. Having recently exhibited in Venice, this will be Terdich's first exhibition in New York...".
